

# WHY BLUE RIVER AVIATION?

## EXPERIENCE

Our flight school focuses on professional aviation training, preparing students for everything from airline careers to off-airport operations in Alaska's backcountry.

We have a 98% pass rate with more than 150 check rides in 2021

## OPPORTUNITY

Our highly diversified fleet will prepare you to be a bush or airline pilot; just pick your path.

We can train in all environments, including mountain flying, access to the coast, and controlled and uncontrolled airspace. We have it all in Southcentral, Alaska.

## ADDITIONAL OPPORTUNITIES

- High-Performance Endorsement
- Complex Endorsement
- Biannual Flight Reviews
- Instrument Proficiency Checks
- Aircraft Rentals

## OUR FLEET

We provide aircraft for a wide variety of training.

Everything from C150's and C172's Technologically Advanced Aircraft (TAA), Complex, Floats, Skis, Tailwheel, Multi-Engine, and more!

Two of our C172s are Technologically Advanced Aircrafts, equipped with dual G5s, Garmin 650, and a G500 Auto Pilot.

### Full motion simulator

Our Redbird FMX full motion simulator is an excellent tool for instrument training or as an alternative on bad weather days.

## MULTI-ENGINE

Our Twin Comanche is available for your Multi-Engine add-on, MEI Rating, or ATP.

The multi-engine land rating can be an "add-on" to an existing single-engine land private or commercial certificate. Multi-Engine-rated pilots will experience a remarkable improvement in aircraft performance capability and an increase in speed, power, and rate of climb.

## FLOATS RATING

Blue River Aviation offers seaplane training/ ratings in a Piper Super Cub equipped with Edo Floats and a C172 on Aerocet Floats.

Our course includes ground training and up to 6hrs in the aircraft. We also offer Seaplane refresher training as well.

## MAINTENANCE

Blue River's hangar facilities feature a fully outfitted shop, and A&P-certified aviation mechanics, ensuring rapid, high-quality service. We provide many services for general aviation single-engine and piston multi-engine aircraft, including:

- Annual Inspections
- 100 Hour Inspections
- Tires & Brakes
- Routine Maintenance
- Modifications
- Sheet Metal Repairs
- Composite Repairs

We perform quality work to ensure the functionality and safety of each aircraft to create long-term relationships and help our clients continue to fly smoothly.
